AI: 12-12-10 King of Jungle Da Zurita #2,419,455
Due: September 23, 2011

If you ever wanted to make a "wish" and design a perfect pedigree and type for a Fleckvieh female, here she is. Wisher is sired by BHR Oakes and out of a BHR Three Sixes daughter whose dam, BHR Ms Swazi G100E, is a flushmate sister to BHR Doorn.

Wisher is a combination of maternal and power genetics with balanced EPD's. She is deep ribbed with an excellent top and smooth shoulders with neck extension. Ample thickness and muscling that is very wide based.

"Wisher" sells bred to our great, easy calving, young Herd Sire, Jungle, to calve in late September. An exciting package that will surely be a front pasture kind.

No genetic test info on file. At this time assumed to be free of defects.
